Russ Rogers Receives Honorary Doctor of Science

Colorado Springs, CO – May 4, 2005 – Security Horizon, Inc., is proud to announce CEO and CTO Russ Rogers has received an honorary Doctor of Science (HonScD) degree in Network Security from the University of Advancing Technology (UAT) in Tempe, Arizona. Award of the degree was approved by UAT's Board of Directors and based on Mr. Rogers' distinguished professional achievements and contributions as Professor of Network Security in UAT's Network Security Architecture and Administration program. Mr. Rogers accepted the degree during UAT's 2005 commencement ceremony on April 30th

Mr. Rogers is the CEO and CTO of Security Horizon, a Colorado Springs-based information security professional services firm. He is a technology veteran with over 12 years of technology and information security experience. He has served in multiple technical and management information security positions and is a United States Air Force veteran.

About the University of Advancing Technology – The University of Advancing Technology (UAT) is a private college dedicated to advancing technology both in practice and in theory. Since the college launched operations at its campus in Tempe, Arizona, they have devoted all of their resources to creating a hybrid academic environment where students are challenged to achieve, explore new and traditional concepts, and practice what they learn in real-world situations. This combination of research, scholarship and application creates technically adept graduates who are equally at home in academia and the working world, and valued by both.

About Security Horizon, Inc. – Security Horizon, a veteran-owned small business, was founded in 2000 by information security professionals with extensive backgrounds in commercial, United States Government, and Department of Defense (DoD) environments. Security Horizon offerings include security assessments and network vulnerability evaluations, penetration testing, security policy development, and National Security Agency (NSA) INFOSEC training courses and appraisals. Many of our consultants hold high-level security clearances and our experience includes work with the NSA, Defense Information Systems Agency (DISA), United States Navy (USN), and the United States Air Force (USAF). Security Horizon is headquartered in Colorado Springs, Colorado.
